

By: Marianna Mostovaya

one

1

seed

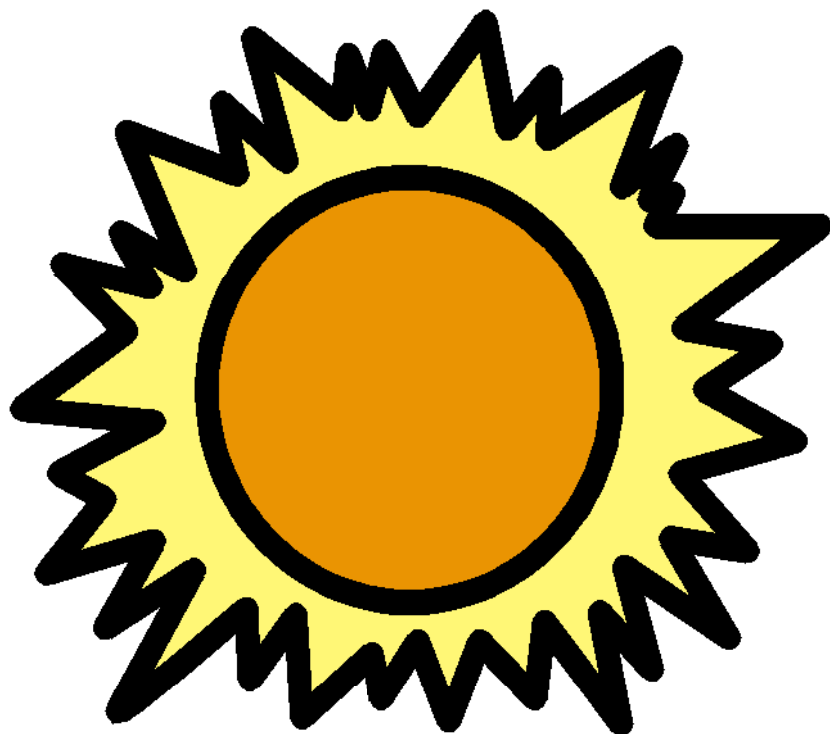

flies

to the

sun

Another

seed

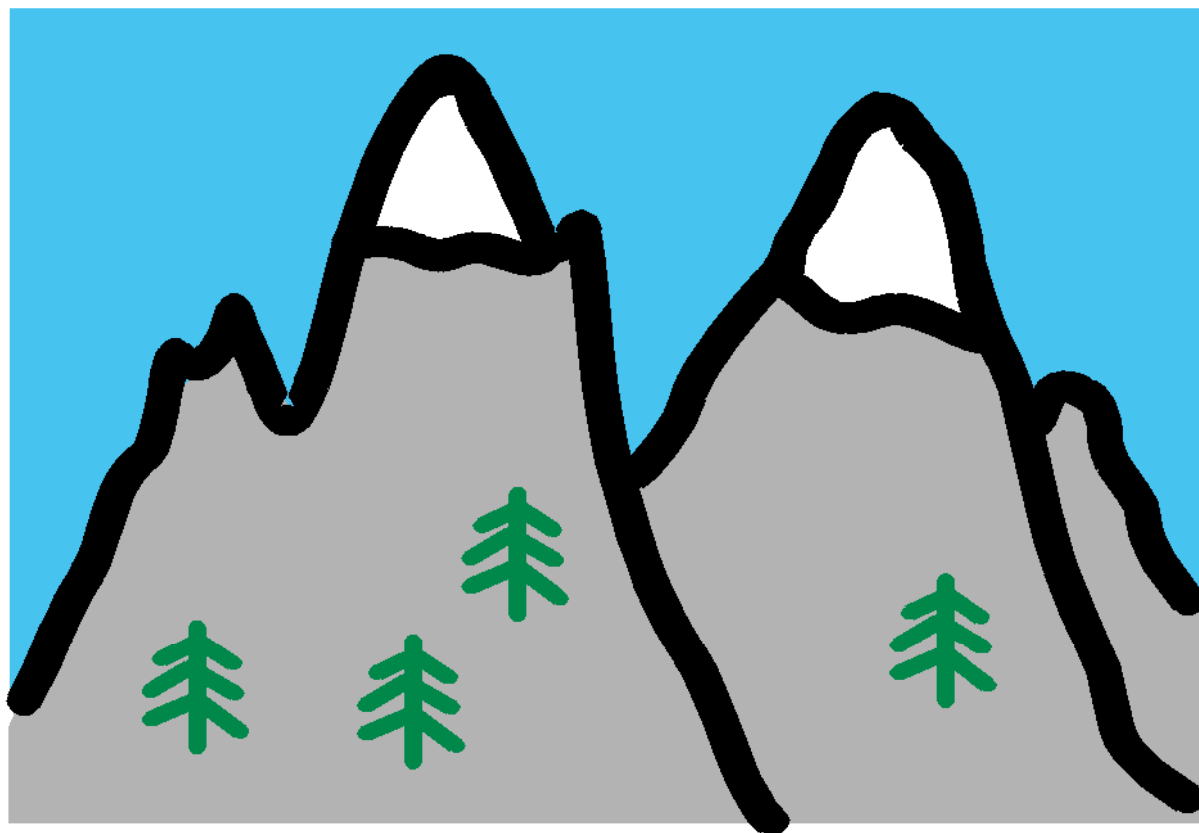

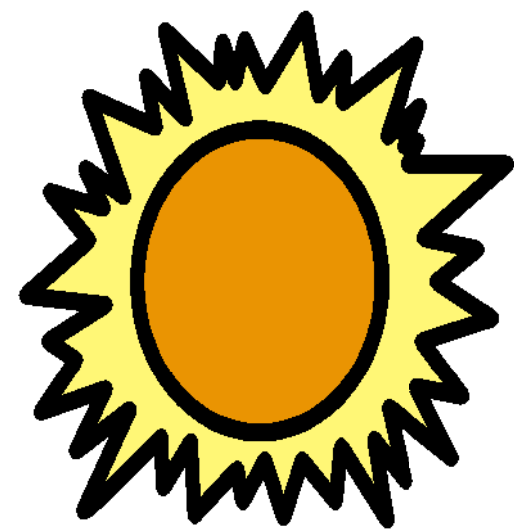

lands on top of

an icy

mountain

Now the seeds

fly

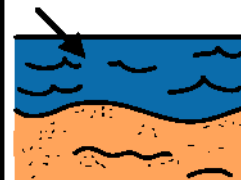

over

the

ocean

and

one

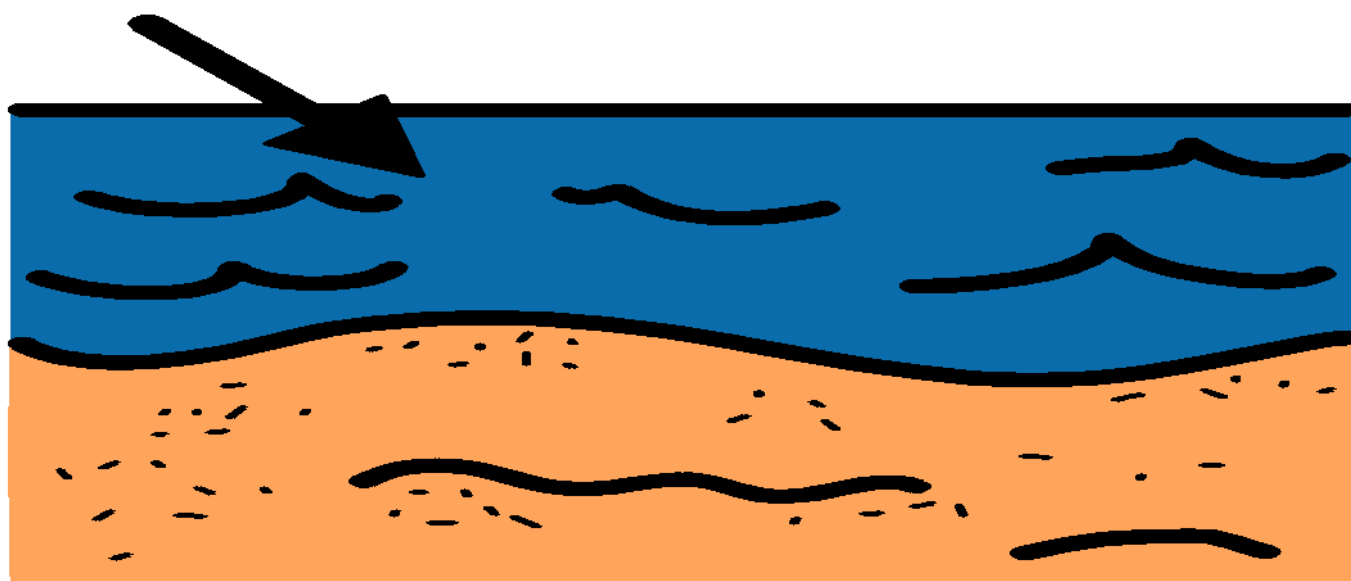

seed

falls

in

One

1

seed

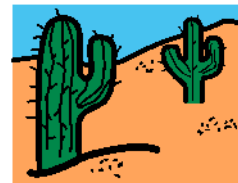

drifts

to the

desert.

☐ It is hot

and

dry

and

the

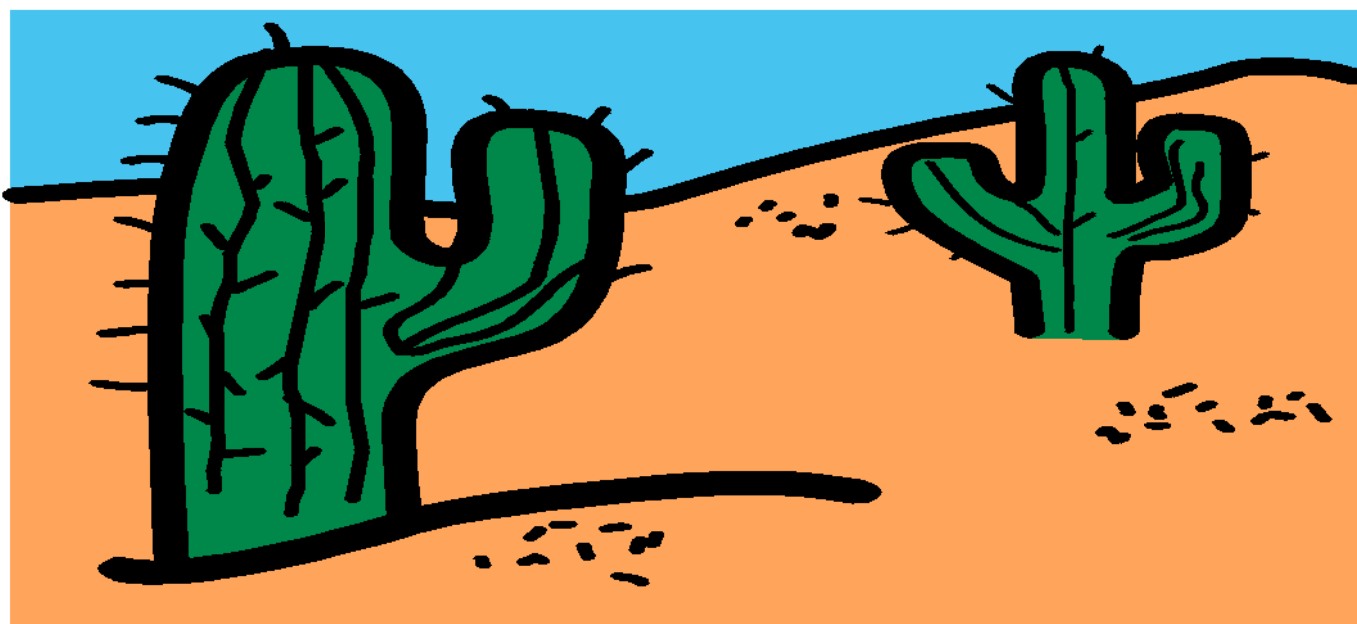

seed

cannot

grow.

One

1

seed

falls

to the

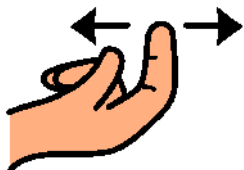

ground.

A bird

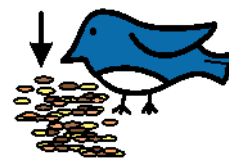

comes by

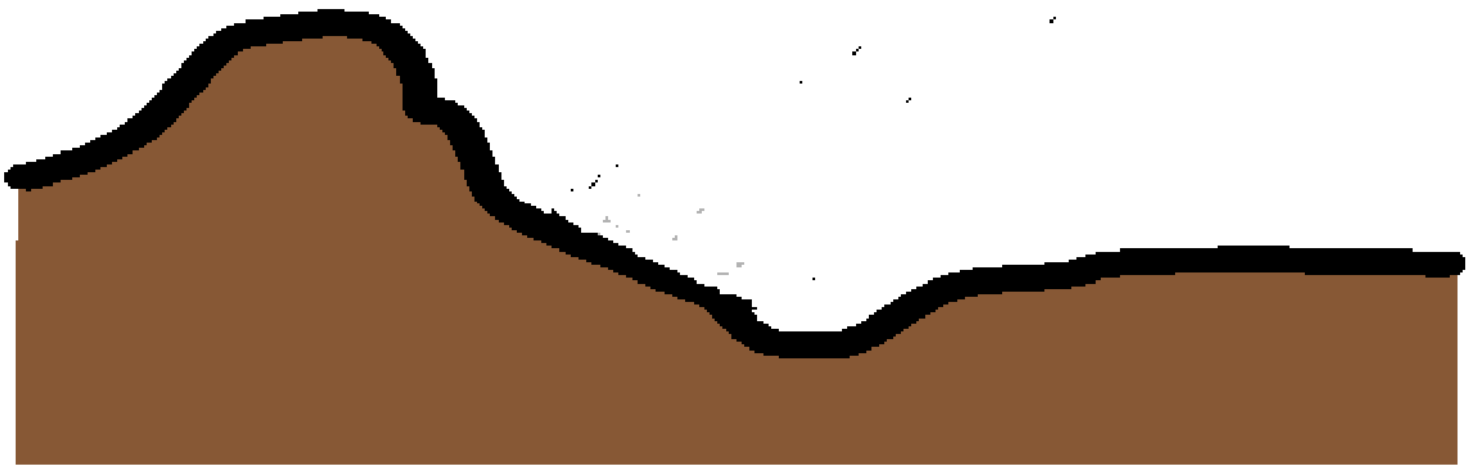

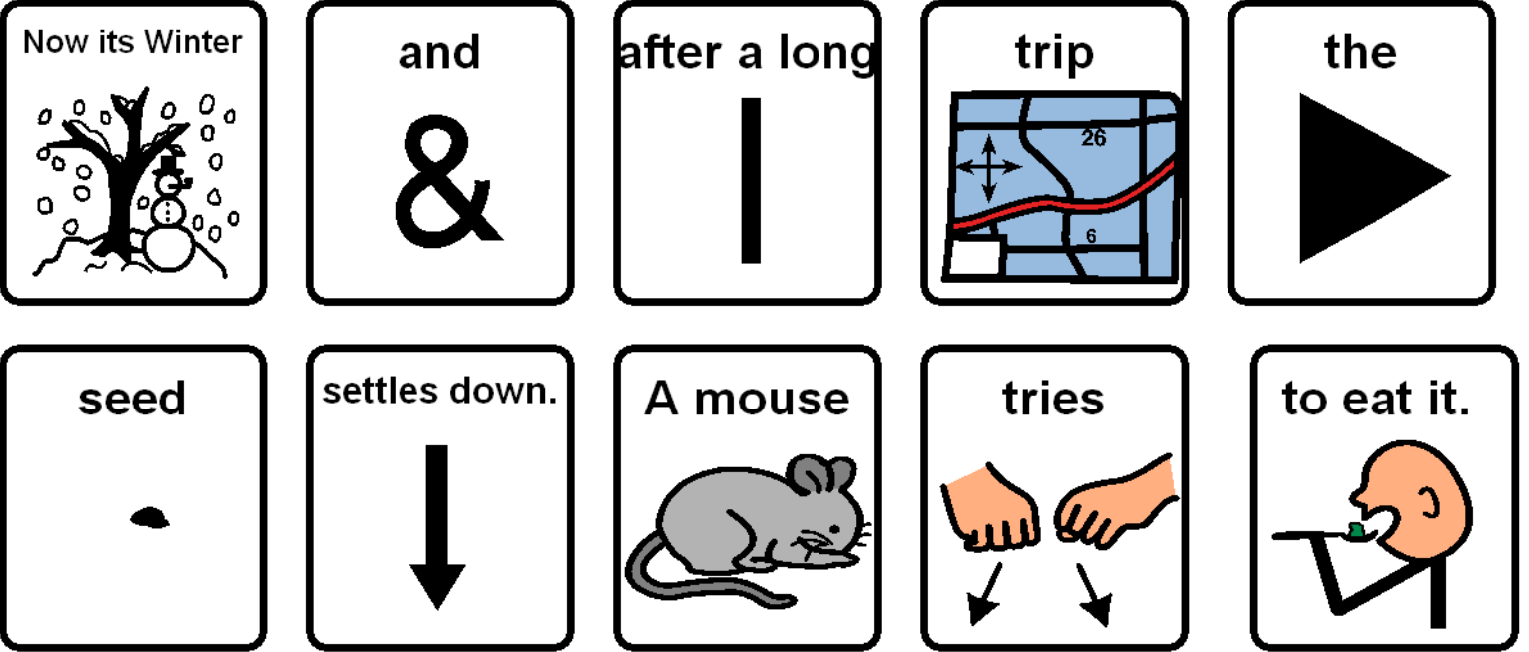

and

eats it.

Now its Spring

and

with

sun

and

rain

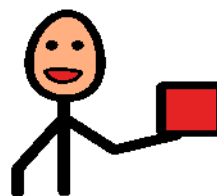

the

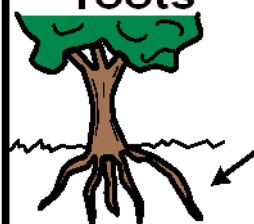

seed

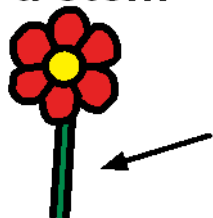

shows

roots

a stem

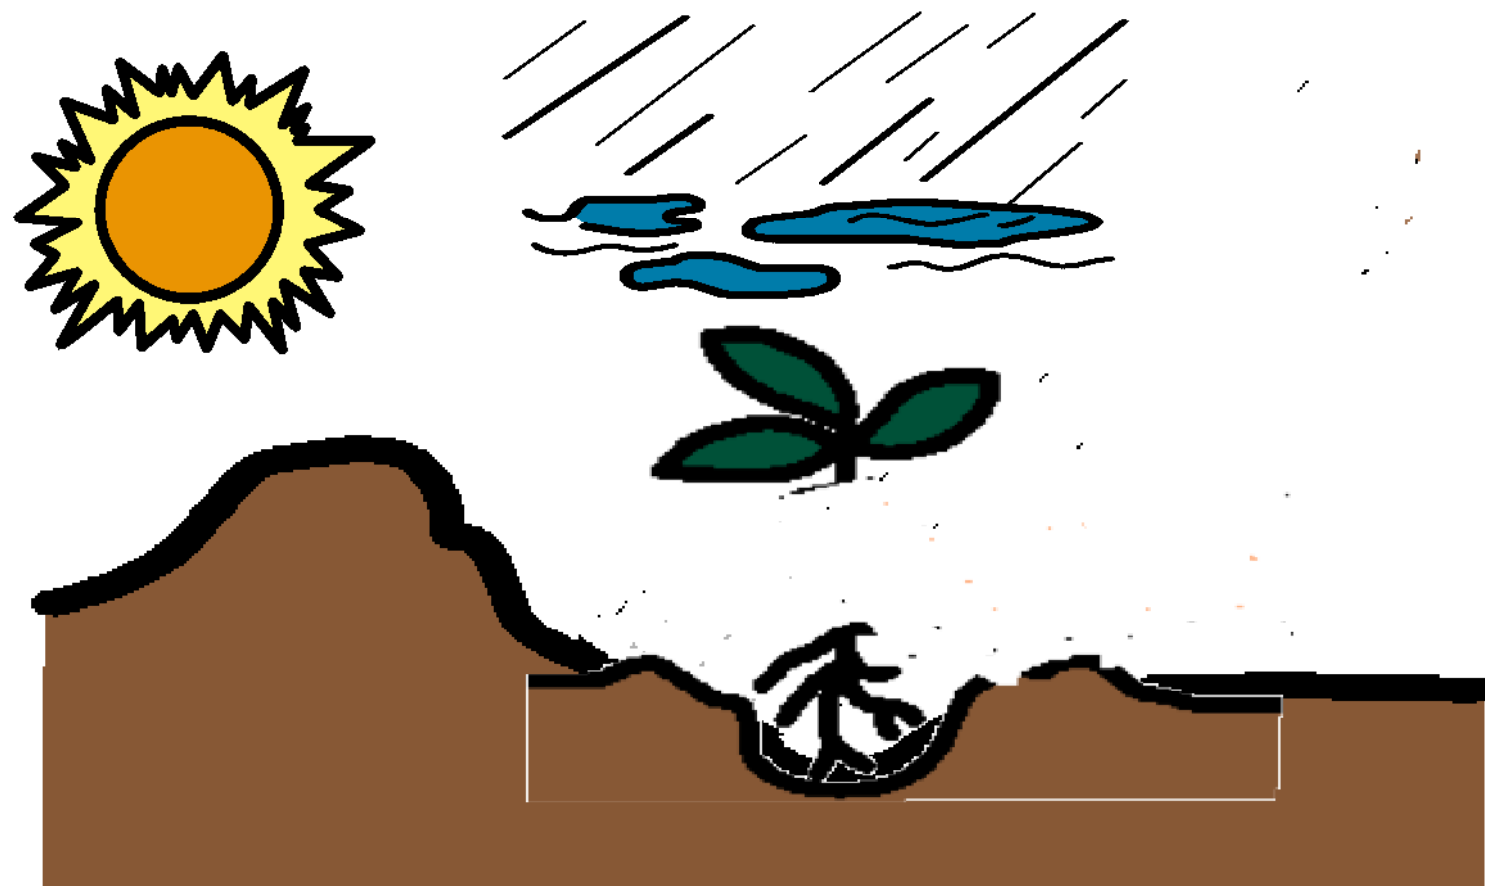

and

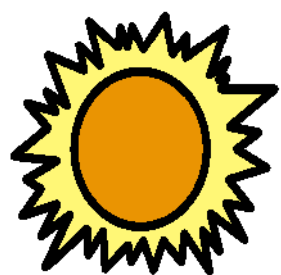

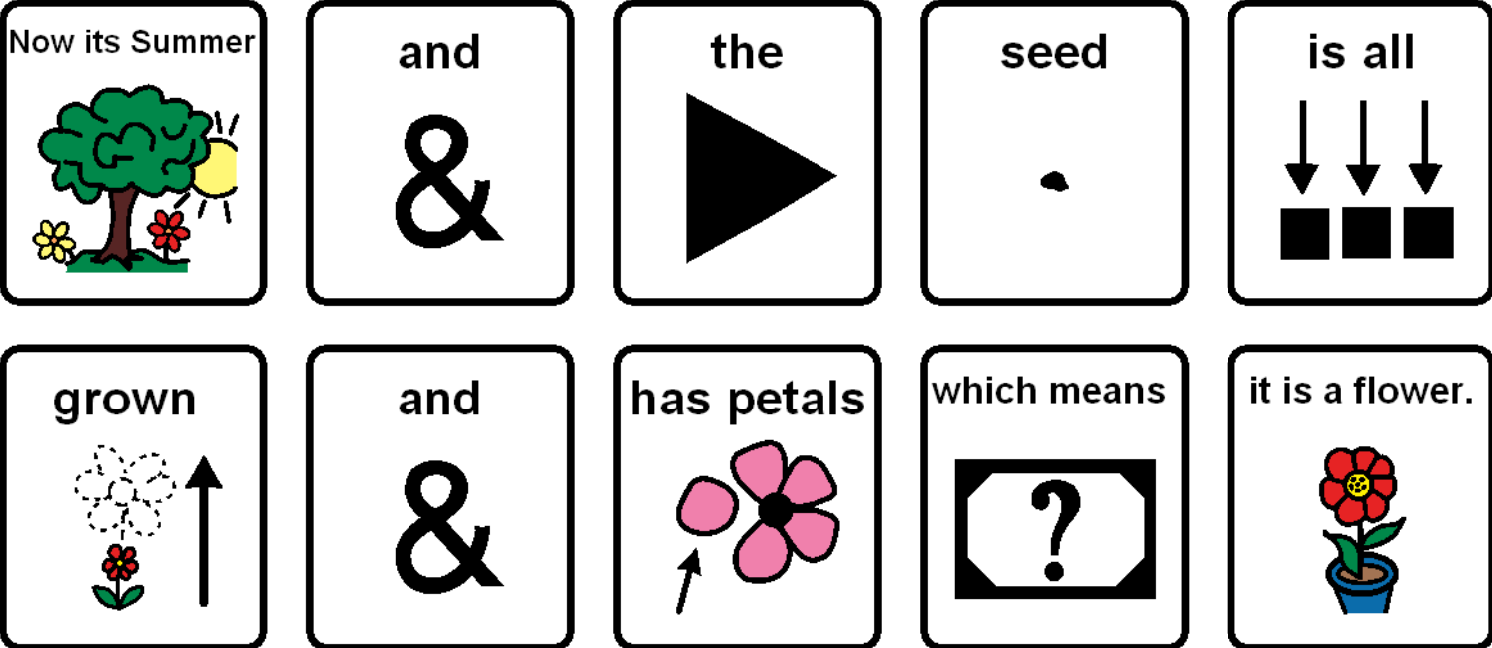

some

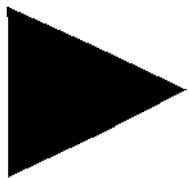

leaves.

The

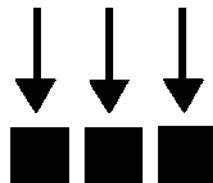

flower was so

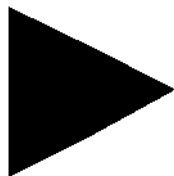

beautiful

it made all

the

children

so happy!
